

Application No.  
Amendment dated  
Page 2

### AMENDMENTS TO THE SPECIFICATION

Replace the paragraph on page 10, lines 9-17 with the following amended paragraph:

The experiments were conducted with the stator of a small industrial motor having a diameter of approximately 15 cm. The windings are guided in the winding heads by means of auxiliary frames made from thermoplastic; also, there are connecting wires insulated with plastics in different colors ~~couleurs~~. The CIC used was the monomer-free resin Dobeckan MF 8001-UV from Schenectady-Beck, Hamburg. Dobeckan MF 8001-UV is a monomer free, one-component impregnating resin based on an especially modified unsaturated polyester resin. The resin comprises photoinitiators.

Replace the paragraph on page 11, line 4 with following amended paragraph:

Example 2 (E2) ~~3 (E3)~~
